

## END USER PROFILE

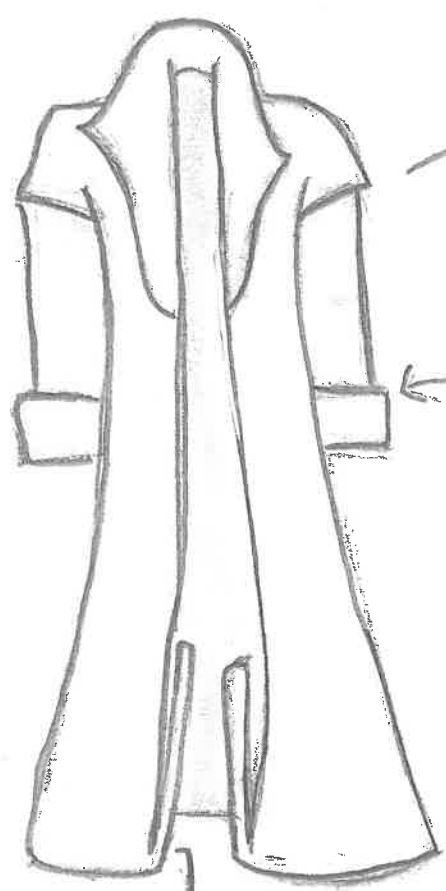

**24 years old. Female. Living in an apartment in Melbourne. My client is living her perfect life. While still single, she has a passion for fashion and enjoys keeping up with the latest trends. She loves the warmth of winter clothes and hates being cold! Her style varies from street to a sophisticated business look with pops of retro and often wears outfits made from natural fibres. She loves shopping at Chadstone and strolling around the streets of Melbourne, but nothing compares to the thrill that arises when she sees those words "Online Sale!" Her music taste is a variety of country and chill that often cantivates the theme of love.**
