25 February 2020

Firstly, as College Leaders we would like to endorse the letter that our Principal sent out yesterday. Clearly this behaviour, on this occasion in the video is offensive and disgusting. We would like to make it clear that this incident is not a true representation of our College, our culture and by no means does it reflect our common language.

We will move forward from this through educating our College community that this behaviour is unacceptable and does not work in accord with our College's Mercy values or codes.

We would hope this one act does not define us as a College and we aim to eradicate any misconceived ideas that this is what we stand for.
